SYNC CONTACTS FROM THE APP

Did you know you can sync your contacts from the Soluno app to your local contacts? Follow these steps to sync your contacts.

Open the app and go to Settings.

- Then click Sync.
- 3.1 If you already have a profile that allows your app to synchronize your contacts, just click on **All Contacts**. Then you're done.

3.2 If you do not have a profile that allows synchronization, you must install it. Click on **All**, and you will come to a guide. Click **Show me how**.

Scroll through the steps in the wizard until you reach the last step. There you click on Install Profile.
