SEARCH FOR COLLEAGUES AND GET LINE STATUS IN REAL TIME

Information about the company's own users is often one of the company's most important assets. Dstny's phonebook provides the information you need.

KEEP TRACK OF ALL YOUR COLLEAGUES

Looking for colleagues is one of the most common things in a workplace, to make it easier for the employee it is convenient to be able to have this search in the place where the user is, e.g. intranet.

GET A COMPLETE SEARCH PAGE OR DEVELOP YOUR OWN

Thanks to our open API, you have the opportunity to customize and develop your own search page that gets all information directly from the exchange. We will of course provide you with the information you need.

However, we know that not everyone has access to developers on site and therefore we have made a search page specifically for the individual customer that is ready to use.

SEARCH FOR E.G. NAME OR POSITION AND GET BACK:
